

2. Department To Use Radioactive Material – Contact Person

Response from Applicant:

Identify the individual who can answer questions about the application and include his or her telephone number. This is typically the radiation safety officer, unless the applicant has named a different person as the contact. The Agency will contact this individual if there are questions about the application.

Notify the Agency if the contact person or his or her telephone number changes so that the Agency can contact the applicant or licensee in the future with questions, concerns, or information. This notice is for "information only" and does not require a license amendment.

3. License Action Type

Response from Applicant:

Mark the appropriate choice; if submitting an amendment request or a renewal application, indicate the applicable radioactive materials license number.
